

ALL NATURAL CREAM FOR TIRED LEGS AND FEET

Professional Products

Relaxing cream during treatment.

INDICATIONS:

- Feelings of fatigue
- Swollen feet

PROPERTIES:

- Reduces feelings of fatigue, swelling of legs and feet (prolonged standing, sports, walking, heat, pacing, overly-tight shoes, etc.).
- Relieves and refreshes thanks to active ingredients that act in synergy: Veinotonic agents that are rich in flavonoids and vitamin P (combination of plant extracts of hamamelis and horse chestnut), and a temperature lowering agent (natural menthol).
- Includes an original film-forming agent that protects against rubbing on the surface of the skin and prevents the phenomenon of drying.

RECOMMENDATIONS FOR USE:

- Throughout the day, massage the cream starting at the bottom of the feet and towards the ankles, then up the entire length of the leg.
