

ALL NATURAL  
DRY FOOT CREAM

Excellent massage cream during treatment.

INDICATIONS:

- Calluses
- Cracked heels
- Dry, painful feet

PROPERTIES:

- Quickly relieves even painful feet thanks to its analgesic compounds of essential oils of lavender, geranium and sandalwood.
- This cream prevents the formation of calluses with its high concentration of natural hydrating agents (15% plant glycerin).
- The cream controls regeneration of the epidermis with vitamin A, which promotes exfoliation of the stratum corneum.
- Nourishes the upper layer of the epidermis (7% avocado oil), thereby preventing the drying phenomenon.
- Includes an original film-forming agent that protects against rubbing on the surface of the skin and forms a barrier against dehydration.

RECOMMENDATIONS FOR USE:

- Once or twice a day for very dry feet
